Examination Administration Policy and Procedures: Candidate Instructions for the Written Exam & OSCE

1. Overview of Exam

The exam will test candidates on the competencies in the *National Competency Profile for Entry-Level Optometry* through the OEBC Written Examination and OSCE.

The OEBC Written Examination is a one-day exam. It will use 58 cases to test candidates on the competencies in the *National Competency Profile for Entry-Level Optometry*.

The OSCE is a practical exam. OSCE stands for Objective Structured Clinical Examination. The OSCE uses 12 stations to test candidates on the competencies in the *National Competency Profile for Entry-Level Optometry*.

Candidates for the exams can best prepare by:

- Familiarity with and understanding of the examination blueprint
- Developing knowledge and clinical skills relevant to the competencies in the examination blueprint
- Focusing on the development and integration of clinical skill, clinical reasoning and professional judgement;
- Continuing to stress good communication skills across all content areas, and especially in clinical experience settings.

2. Blueprint

The exam blueprint is an outline of the exam structure. It informs candidates about what the exam could test and the weighting of each area. The Overview of Blueprint and the Blueprint for both written and OSCE exams can be found on the website under "Preparing for the Exam."

Sample questions are available on the website under "Preparing for the Exam."

The following information describes examination day procedures for candidates and applies to both the Written exam and OSCE.

3. Written exam and OSCE

3.1 Exam Policies

Candidates must read and be familiar with all Exam Policies found on the website.

3.2 Adherence to Rules of Conduct

Candidates must follow all instructions given and not violate the Rules of Conduct (under Exam Policies on the website). Any candidate suspected of improper conduct may be subject to legal and/or disciplinary action by OEBC and may result in forfeiture of fees paid, invalidation of scores, suspended access to OEBC exams, revocation of any results and notice may be given to any optometry program or licensure of the applicant.

3.3 Scents

All exam sites are scent-free environments. Candidates are to refrain from wearing perfume, scented hairspray, cologne, scented deodorant, aftershave or any other scented products to or at an exam site.

3.4 Orientation

A candidate orientation is held prior to the start of the exam. There is no orientation for the written exam. During the OSCE orientation candidates will receive one sheet of cardstock and one mechanical pencil. These items will be collected before candidates leave the track at the end of the exam.

3.5 Candidate Identification

Candidates must bring two pieces of government-issued identification (passport; driver's license) in order to authenticate the candidate's identity. Candidates whose identity cannot be verified through this identification process may be refused entry.

Candidates must bring on exam day for both the written and OSCE:

- A valid (unexpired) Canadian or foreign passport

PLUS one of

- Canadian or US citizenship certificate
- Canadian or US resident card
- Canadian or US Driver's license
- Birth Certificate PLUS one other piece of government issued identification with a photo (e.g. Canadian health card, military card)
- Note: If you are experiencing extreme or unusual circumstances with obtaining a government issued ID, i.e. expired passport, please contact OEBC immediately for direction. Note that further documentation may be required, e.g. notarized document, at OEBC's sole and exclusive discretion. OEBC is not responsible for any potential related issues which might include additional time or costs to the candidate.

On exam day, exam staff will check both pieces of identification to verify your identification. You will not be admitted to the examination unless you provide both pieces of identification and they are a likeness of your current physical appearance. As well, the names on your government-issued photo ID and the exam registration list must match.

3.6 Change of Name

Change of name must be submitted in writing to OEBC at exams@oebc.ca no later than 30 days before the exam with complete details and necessary official documents supporting such changes.

For change of family name due to marriage, OEBC requires:

- A notarized photocopy of your Marriage certificate and a notarized photocopy of your current passport or government issued ID.

For change of name due to adding or removing part of your name, OEBC requires:

- A notarized photocopy of your Change of name certificate and either a notarized photocopy of your current passport, government issued ID or birth certificate.

For change of family name, returning to your maiden name, OEBC requires:

- A notarized photocopy of your birth certificate and a notarized photocopy of your current passport.

3.7 Washrooms

Candidates are asked to use restroom facilities prior to sign in.

3.8 Arrival & Sign In

Candidates must arrive at the sign-in area of the exam facility between 30-60 minutes before the orientation start time. The recommended arrival time will be communicated to the candidate in their exam schedule information sent by email in advance of the exam administration.

At sign in, candidates will present their identification to exam staff and remain in a designated area of the exam facility as directed. Candidates will not be permitted to leave after sign in.

Bringing Papers/Notes to the exam: Candidates are **not permitted** to bring materials such as textbooks, papers or study notes into the exam site or to review such materials while waiting to take the exam.

3.9 Late Arrival

Important examination instructions are provided during the candidate orientation.

For in-person Written EXAM: Candidates arriving **15 minutes** or more after the exam has started will not be permitted to take the examination.

Remote Proctoring: Candidates must log in between 10-20 minutes before the orientation start time, for both morning and afternoon sessions.

For OSCE: Candidates arriving **after the start** of the orientation will *not* be permitted to take the examination. The orientation is scheduled approximately 30-45 minutes before the exam begins.

3.10 Permissible / Non-permissible Items

Candidates may bring only the following into the examination areas:

- Two pieces of government issued identification
- Sweater

Candidates CANNOT bring the following into the examination areas:

- Watch or wristband
- Optometry equipment and tools
- Clipboard
- Any computing or transmission device, such as a computer, calculator, mobile device, cell phone, beeper/pager, iPod or other mobile/handheld device.
- Purses, wallets, bags, backpacks, suitcases
- Books, paper and any notes
- Pens, pencils, markers, highlighters
- Pencil cases, eyewear cases
- Food, tobacco
- Outerwear - **see Dress Code**. Note: Clothing with logos/lettering and lab coats are *not* permitted.
- Visible jewelry – **see Dress Code**

Assistive Devices:

Assistive Devices such as hearing aids, crutches, canes, wheel chair, etc. are permitted only with approval prior to the exam. For assistive devices refer to the [Exam Accommodations policy](#) for guidance on how to request approval.

Prohibited materials are to be left outside the examination areas or in a designated waiting area within the exam facility. The exam provider assumes **NO** responsibility for loss or damage to candidates' materials left in these areas. Candidates are encouraged to avoid bringing items of value to the exam.

Prohibited materials brought into the exam or accessed during the examination including during a break may be confiscated. Any devices or materials that may compromise the administration or security of the examination will be confiscated. Confiscated items will be inspected either on site or sent together with a report of the incident to the C.E.O. for inspection, and will be kept until any investigation under the Misconduct policy is completed.

Medication/Food is permitted ONLY if prior permission has been obtained:

Food and water is not permitted in the OSCE exam.

If sequestering is scheduled to be more than 2 hours, OEBC will allow candidates to bring in a light snack and water.

Written exam only: All candidates are permitted to have *unwrapped* snacks during the exam. Any food must be clearly visible to the remote proctors.

Candidates with special medical or dietary needs relating to a medical condition: Candidates who are requesting to bring in medicine/food/medical equipment for either the written exam or OSCE for medical reasons **must request approval** under the [Exam Accommodations policy](#). If you are approved to bring food into the OSCE: Food must be consumed outside of the exam station rooms during the rest stations or scheduled break. Requests for use of medication at the exam site will be decided and approved only by the Chief Proctor.

3.11 Incidents

OEBC is committed to ensuring that a candidate’s performance is accurately recorded for scoring. In exceptional circumstances, if anything has occurred that could reasonably be understood to have detrimentally affected the candidate’s performance or evaluation, the candidate has an opportunity to complete an Incident Report for the issues within the categories below.

Table 1 - Categories of Incidents – excerpt from the OSCE Incident Report Form

<p>Please indicate by filling in the bubble(s) which of the following concerns affected your performance:</p> <p><input type="radio"/> Registration <input type="radio"/> Equipment Malfunction <input type="radio"/> Time Interruption <input type="radio"/> Examiner <input type="radio"/> Standardized Patient</p> <p>Please refrain from noting general comments. A survey will be sent after the exam for feedback and suggestions.</p>

Table 2 - Categories of Incidents – excerpt from the Written Exam Incident Report Form

<p>Please indicate by filling in the bubble(s) which of the following concerns affected your performance for the written exam:</p> <p><input type="radio"/> Registration <input type="radio"/> Internet issue <input type="radio"/> Computer issue <input type="radio"/> Time Interruption</p> <p>Please refrain from noting general comments. A survey will be sent after the exam for this information</p>
--

The purpose of filling out the form is to provide any additional information which will ensure that OEBC has an accurate account of a candidate's performance.

A candidate may request an Incident Report from exam staff.

The candidate is responsible for completing the form individually and may not discuss the exam or the incident report with others before completing the form. The completed form is given to the exam staff.

Timing

A candidate may complete an incident report:

- Written exam
 - remote proctoring – email report to exams@oebc.ca within an hour of signing out
 - in-person – before sign out
- OSCE - at a rest station, or before leaving the track

Incident report forms will not be considered if:

- submitted after a candidate has left the track
- missing information (e.g., candidate name, station #)
- received at the OEBC office after the examination

Please note that a follow-up survey will be provided in two weeks following the exam for candidates to provide feedback and suggestions.

3.12 Departure

At the completion of the examination, the candidate is required to leave the assessment area, retrieve any personal effects and leave the examination facility promptly and without discussion with other candidates. Candidates are not permitted to reenter the waiting area or the examination site.

3.13 Exam environment

No exam environment is perfect. There may be variations in room temperatures and extraneous noise.

The following information and administration procedures apply to the Written exam.

4. Written exam

4.1 Exam Day Timing and Seating

The written exam is administered on one day and is divided into two parts: 8:00 am to 12:00 pm; 2:00 pm to 6:00 pm.

Candidates do not begin the examination until directed by the Chief Proctor. Full time allotment will be provided in the event of a delayed start.

At the lunch break; candidates will be signed out. All candidates will be asked to sign in again for the PM session.

Note: Candidates may not leave their seat or the examination area for any reason without the permission of a proctor. Candidates who leave the examination area without permission will not be permitted to reenter the area or complete the exam.

4.2 Introduction of Digital Media to Written Exam

In adopting computer exam delivery, OEBC has expanded the variety of question types that are possible on the written exam. We successfully conducted a pilot using a computer-delivered version of ocular images on the Spring administration. The technology allows us to move some non-interactive cases from the OSCE to the written exam and add additional interactive cases to the OSCE.

The written exam will have cases containing digitized media. Candidates will have the opportunity to challenge questions related to each case. Candidates' responses to the questions related to the media form part of their final score.

Please note that both morning and afternoon sessions are four hours long to facilitate these additional cases. The inclusion of relevant media has been a long-term goal of the written exam, but issues related to the paper-based print quality had proved to be challenging.

4.3 Remote Proctoring

Remote proctoring is the ability to provide candidates with the opportunity to attempt the written exam exclusively online while ensuring the integrity of the exam. In doing so, candidates are monitored online through video while the exam is in session to ensure legitimacy and to identify any potential misconduct.

The most significant benefit to remote proctoring is it allows candidates the ability to choose their examination environment, wherever they deem most comfortable as long as it has a viable internet connection– this could be within their own home, a library or at their school, etc.

Other noteworthy benefits include:

- ✓ Increases personal safety by eliminating candidates having to assemble in large group settings
- ✓ Reductions in travel expenses to the candidate (hotel, flights, etc.)
- ✓ Discourages travel to eliminate candidates having to quarantine or quarantine twice (especially for those also attempting the OSCE)

To determine if your system is compatible, you may use the link below to download, install and test the WebLock software.

Download, install and test WebLock:

<https://app.fasttestweb.com/FastTest/browserlockdown/app#/weblock/download>

Troubleshooting article for WebLock: <https://assesshelp.zendesk.com/hc/en-us/articles/360002359331-Troubleshooting-WebLock-Respondus-Lockdown-Browser->

Connection Test and FAQ for Remote Proctor system: <https://monitoredu.com/faq>

Live Chat assistance for Remote Proctor system: <https://monitoredu.com/live-chat>

****It is recommended that you verify your equipment is compatible and the correct installation of the WebLock browser has been completed in the days (i.e., no more than 2 days before the exam). ****

More information regarding troubleshooting, connection testing and Live Chat assistance will be included in the information that will be emailed to all registered candidates 6-8 weeks prior to the exam.

4.4 What are the System Requirements?

- Laptop or Desktop Computer (tablets are not compatible)
- Latest Version of any of these Web Browsers:
 - o Google Chrome
 - o Mozilla Firefox
 - o Apple Safari
 - o Microsoft Edge
- JavaScript - must be enabled; automatically included with supported browsers
- Cookies - must be enabled; support in the about browsers
- Screen Resolution: 1024 x 768+

Candidates are permitted to use a calculator (Casio FX 260) and have either paper, pencil & eraser or a white board and marker. All equipment must be shown to the proctor at sign in.

4.5 Washroom

During the exam: You must notify the proctor if you require a bathroom break. You may use the washroom during the exam but no extra time is given.

4.6 Water

Bottled water in a clear bottle *with label removed*. Beverages other than water are not permitted.

OEBC is not responsible for damage to examination equipment or lost exam time as a result of a candidate's food/water spillages.

4.7 Dress Code

Outerwear such as coats, ski pants, gloves/mitts, scarves, hats are not permitted in the assessment area. Visible jewelry is not permitted.

Candidates may wish to dress in layers as the temperature of examination sites may fluctuate. OEBC will refuse entry or assessment to candidates who, in the opinion of the Chief Proctor are wearing inappropriate or non-permitted clothing.

Inappropriate dress would include:

- Shorts
- Tank top shirts (sleeveless or short-sleeve shirt is acceptable)
- Flip-flops
- Ripped clothing

Non-permitted dress would include:

- Clothing with hoods
- Clothing with logos/lettering/pictures and/or statements
- Laboratory coats
- Clothing with excessive pockets or layers or excessive in size
- Baseball caps and any other head covering
- Any form of wristband, armband, watch, etc.
- Visible jewelry such as rings, any piercings etc. *Ensure all jewelry has been removed before arriving at the exam.*

Note: If the candidate wishes to request wearing a head covering or object for a religious reason, the candidate must submit a request for approval to OEBC at exams@oebc.ca no later than 30 days before the exam.

Note: If jewelry is being worn for medical reasons, please contact OEBC at exams@oebc.ca no later than 30 days before the exam.

4.8 Submission of Answers

Candidates are individually responsible for correctly and fully completing their answers on the computer-based format. The Chief Proctor will provide some general direction to the candidates at the beginning of each examination on completing the name and candidate number.

Candidates mark only one answer for each question. Questions that have no answer selected or which have two or more selected answers are scored as incorrect. All answers are recorded electronically. Improper answer recording is not grounds for successful appeal.

Important: candidates must submit their answers electronically as stated on the instructions given by the proctor before leaving the exam.

4.9 Roles

A Chief Proctor and the proctor team will maintain oversight of the exam administration and provide exam day instructions. The chief proctor will also explain emergency procedures.

4.10 Early Departure

Candidates may exit the examination any time after the midpoint of the examination, except during the last 15 minutes.

4.11 Termination

The written exam will be terminated if the candidate is found to be in possession of prohibited materials inside the assessment area, if the candidate leaves the assessment area for any reason without permission, or if a candidate is found to be violating the rules of conduct (e.g. talking with another candidate during the exam).

Note:

OEBC reserves the right to cancel an exam administration if it has been determined that the security of the assessment has been violated.

OEBC reserves the right to delete from scoring any test item which is found to have been exposed to one or more candidates before the exam administration.

OEBC reserves the right to change the exam application requirements and instructions at any time.

The following information and procedures apply to the OSCE only.

5. OSCE Examination

5.1 What an OSCE is

The OEBC OSCE is a practical exam. OSCE stands for Objective Structured Clinical Examination. It is a form of practical examination that provides candidates with a consistent exam experience, and provides assessors with objective behavioural criteria for scoring candidate performances.

In an OSCE, candidates move from one room to the next to perform a series of stations. Candidates will be brought to their first station where they will find their instructions for that station on the door. They will hear a signal to enter the room, where they will carry out the

instructions of that station. A copy of the instructions is also inside the room. At the end of the station, the candidate will hear a bell or other signal that the station has ended and they should leave the room and walk to the next door where they will find their instructions for that station.

Upon entering the exam room, the candidate may introduce themselves to the examiner and standardized patient.

A candidate orientation is held before the candidates begin their assessment. During this, the head proctor will explain the exam day procedures and emergency procedures.

Candidates may wish to review the OEBC videos at www.oebc.ca as a source of information about how OSCE administrations and OSCE stations are run in the OEBC exams.

5.2 Equipment

Photos of optometry equipment such as a Binocular Indirect Ophthalmoscope (BIO) and Retinoscope that may be used in the OSCE are in Appendix A as well as in the OSCE administration video at www.oebc.ca.

Candidates may be asked to perform techniques such as BIO, gonio, tonometry, SLE. Any equipment, tools and props that may be required for the examination will be supplied by OEBC and candidates are expected to be able to use the provided equipment see Appendix B.

5.3 Exam Day Scheduling and Timing

Approximately 6 to 8 weeks prior to the OSCE administration, candidates will receive their assigned date (Saturday or Sunday) and time (AM or PM) of their OSCE exam.

There are 12 test stations. Nine of the stations are interactive stations, with a Standardized Patient. The remaining three stations are non-interactive and do not have a Standardized Patient.

The total time for the exam is estimated to be two hours, plus orientation time as well as time to sign in and sign out.

The orientation is held just prior to your scheduled exam session. Candidates are responsible for allocating their time within each OSCE station. Each station is 8 minutes long and there are 2 minutes between stations. Candidates will be signaled to begin the assessment at each station. There is a signal at the 6 minute mark to warn candidates there are 2 minutes of assessment time remaining. Candidates will also be signaled at the end of the station and must remain in the examination room until this signal.

A 2 minute period is provided between each station to allow candidates to move to the next examination room and read the instructions. Note that during the 2 minute reading time, candidates cannot read the question sheet for non-interactive stations. At the signal to enter the room, candidates must take a question sheet from the envelope. Candidates may

not enter the next station room until the start signal. Talking with other candidates, examiners or standardized patients during this time is not allowed.

Note: Candidates may **not** leave the assigned exam room or any part of the exam area for any reason without the permission of an examiner or exam staff. Candidates who leave the exam area (e.g. to go to the restroom) without permission will not be permitted to re-enter the assessment area or complete the remainder of the exam.

At the end of the station, the Examiner will stop assessing the candidate.

5.4 Exam Day Sequestering

The exam day is divided into three (3) sessions – two in the morning (AM1, AM2) and one in the afternoon (PM1). Candidates are to arrive at their scheduled sign-in time. All candidates will be sequestered, i.e. required to remain in a secure, holding area, until the examination orientation has started, as follows:

- AM1, AM2: Candidates in the first session (AM1) will be sequestered until the third session has signed in. Candidates in the second session will be sequestered before the exam and or until the third session has begun. This will result in the same amount of exam and sequestering time for all candidates, i.e. an estimated 4-5 hours.
- PM1: Candidates in the first afternoon session (PM1) are sequestered before the exam and or until the second session is complete. This will result in the same amount of exam and sequestering time for all candidates, i.e. an estimated 4-5 hours.

Note:

- Any personal belongings will be collected and brought to the holding room.
- Refer to **Permissible / Non-permissible Items** “Food” for information on food during sequestering.
- Washroom breaks will be permitted under escort
- Use of cell phones or other electronic devices is strictly prohibited
- *Failure to comply with these rules is considered disruptive behaviour as defined in the Misconduct policy*

5.5 Water

Candidates are not permitted to bring water into the examination. Upon request of an exam staff, water will be provided to candidates in the OSCE. ****Please note: water will not be available while COVID-19 protocols are in place******

5.6 Washroom

Before the exam: Washroom facilities at the exam site are not accessible to candidates prior to sign in. Candidates may wish to use washrooms in other buildings or prior to coming to the exam.

During the exam: You must be escorted to the washroom by exam staff. Please use the washrooms during either one of your two rest stations after the other candidates have entered their stations. You may use the washroom during a station but no extra time is given.

5.7 Answer sheets & Instructions

Instructions will be outside the exam room. Candidates must read the instructions carefully to ensure they do what is asked in the station.

All marked answer sheets and all other testing materials including incident report forms are the property of OEBC. At the completion of a non-interactive station candidates place their answer sheet in the envelope on the door as they leave the station.

Candidates may not remove any materials from or discuss any information about the exam. Any candidate found to have materials or information about the exam will be in violation of the Misconduct policy and subject to any and all penalties within the policy.

Important: Marked answer sheets and all other testing materials including incident report forms are the property of OEBC. Candidates must submit their answer sheets, question books, and all other testing materials to the Chief Proctor or other designated person prior to leaving the exam. Candidates may not remove any materials from the examination room.

5.8 Exam Roles

Candidates are evaluated by an examiner in each interactive station. Candidates may or may not be evaluated by an examiner in a non-interactive station(s). *Important:* Examiners are not permitted to dialogue with or provide candidates with advice, counsel, or direction.

The candidate interacts with a standardized patient (SP) who has been trained to present the signs and symptoms of a condition, and respond to candidate questions, statements and actions consistently. Candidates should respond to the standardized patient's affect and behaviour. They should treat the standardized patients as if they are real patients and ensure that no harm comes to them.

The OSCE involves no direct contact on the standardized patient. If there are required tests or procedures in an OSCE station they will be performed on a model.

All stations may be monitored and video or audio recorded for exam security purposes.

Exam staff will be identified before the exam and will assist candidates in movement through the next station.

A Chief Examiner will maintain oversight of the exam administration.

5.9 Conflict of Interest

A direct personal or professional relationship (e.g. relative, close friend, current or recent employer) with either the Examiner or the Standardized Patient must be declared by the candidate prior to the commencement of the station or examination. The examiner or SP will also declare such a relationship. The chief examiner or designate evaluates and determines whether a conflict exists. This decision is final.

5.10 Dress Code

Outerwear such as coats, ski pants, gloves/mitts, scarves, hats are not permitted in the assessment area. Visible jewelry is not permitted.

Candidates dress and grooming must be appropriate to a professional in a health care setting. Candidates may wish to dress in layers as the temperature of examination sites may fluctuate. Clothing with excessive pockets or excessive in size may not be permitted. OEBC will refuse entry or assessment to candidates who, in the opinion of the Chief Examiner or other designated exam staff are inappropriately dressed or wearing non-permitted clothing.

Inappropriate dress would include:

- Shorts
- Tank top shirts (sleeveless or short-sleeve shirt is acceptable)
- Flip-flops
- Ripped clothing

Non-permitted dress would include:

- Clothing with hoods
- Clothing with logos/lettering/pictures and/or statements
- Laboratory coats
- Clothing with excessive pockets or layers or excessive in size
- Baseball caps and any other head covering
- Any form of wristband, armband, watch, etc.
- Visible jewelry such as rings, any piercings etc. Ensure all jewelry has been removed before arriving at the exam.

Note: If the candidate wishes to request wearing a head covering or object for a religious reason, the candidate must submit a request for approval to OEBC at exams@oebc.ca no later than 30 days before the exam.

Note: If jewelry is being worn for medical reasons, please contact OEBC at exams@oebc.ca no later than 30 days before the exam.

5.11 Exam Termination

The OSCE exam will be terminated if the candidate is found to be in possession of prohibited materials inside the assessment area, if the candidate has brought unauthorized equipment, if the candidate leaves the assessment area for any reason without permission, or if a candidate is found to be violating the rules of conduct. An exam station will be terminated if a Standardized Patient is injured or if it is determined that the Standardized Patient or Examiner is being placed at risk of injury.

BIObot simulated eye closeup

Close up of slit lamp mounted Goldmann tonometer.

Close up of supplied trial lens case

Candidates may be required to perform Goldmann tonometry on the tonometry model. Note the location of the Goldmann tonometer on the slit lamp.

The provided slit lamp is a Zeiss-style slit lamp. Note the location of the slit height and filter thumb dials in the centre of the picture. The slit width knobs are on each side (horizontal arrow). The slit angle dial is at the top (vertical arrow).

The Goldmann tonometer dial at the top of the slit lamp.

The gonioscopy model mounted in the slit lamp.

Candidates may be required to perform gonioscopy on the gonioscopy model using a provided 3-mirror lens. Candidates may touch the model's eyelids if they judge it necessary to perform gonioscopy.
